Aqua Sphere®

2020 BUYER'S GUIDE

WE LIVE TO SWIM

A full-page background image showing a person swimming underwater, viewed from below. The person's arms are raised, and their head is visible with a swimming cap. The water is a deep blue, and there are bubbles around the swimmer.

AQUA SPHERE

Established in Genoa, Italy, in 1998 Aqua Sphere was launched by Aqua Lung, the world's leader in scuba diving and snorkeling equipment. Today, with a global footprint in over 60 countries, Aqua Sphere is the premium swim optics manufacturer for fitness and recreational swimming and triathlons.

Aqua Sphere is dedicated to meeting the needs of everyday swimmers who enjoy swimming at a variety of levels and for a variety of reasons: fun, fitness, stress relief and more. For Aqua Sphere, people are true swimmers not because of how or why they swim, but because they do swim. With these swimmers in mind, Aqua Sphere created premium swimming products that enhance their experience in every body of water they choose to explore.

SWIM GOGGLES & MASKS

The genesis of the Aqua Sphere Brand is in our Swim Goggles and Masks. Developed from our core engineering of precision Aqua Lung dive mask technology, the Aqua Sphere difference starts with a best in class seal and unrivaled visibility, equating to crystal clear underwater vision and long-lasting comfort. Our new focus is delivering proprietary geometric designs made from Italian craftsmanship eye protection with specific lens technology to enhance the swimmers' experience in any body of water. Aqua Sphere creates goggles and masks for both recreational use and advanced protection in the open waters of the ocean, the lane lines of a competition pool and in the comfort of your neighbor's backyard. Designed for adults and youth, we place vision and comfort first.

VISTA JR

MADE IN ITALY

Born in 1998 in Genoa, Italy, Aqua Sphere began a quest to create the most comfortable eye wear for swimming. The innovative seal swim mask was truly revolutionary, introducing unparalleled peripheral vision with its curved lens technology, easy-to-adjust straps, and long lasting comfort. Aqua Sphere continues to lead the industry, developing technologies that improve performance, fit, and comfort in any use, casual or athletic. **"Made In Italy with Aqua Sphere Technology"** equals superior research, craftsmanship and design.

AQUA SPHERE CURVED LENS TECHNOLOGY

Our curved lens technology offers the clearest possible visibility through superior optics engineering based on 3 key placed radii, virtually eliminating distortion while delivering an uninterrupted, 180° wide field of vision with exceptional hydrodynamics.

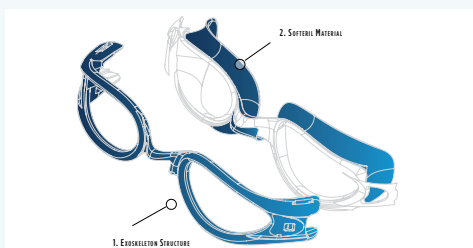

FACIAL GEOMETRY

No two faces are alike. Understanding facial geometry is both an art and a science. Every year, the Italian design team continues to refine and improve the fit of our masks and goggles. Aqua Sphere eye protection offers an optimized fit, unequaled comfort and performance to the widest possible range of facial shapes.

EXO-CORE TECHNOLOGY

Exo-Core is the evolution of Aqua Sphere best selling technology. The new bi-material frame technology combines exceptional stability with maximum comfort. The two are a marriage of a (1) semi-rigid exoskeleton for lens protection and structure paired with an integrated, (2) ultra soft Softeril material to offer a streamlined, lightweight design with enhanced durability.

AVAILABLE IN: KAIMAN EXO

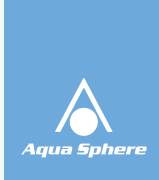

ADVANCED FIT TECHNOLOGY - AFT

The patented **A.F.T.** is integrated into the gasket design, offering an enhanced watertight seal around the eyes and maximum comfort. Alternating matte and polished zones on the gasket, it reduces the marks on the skin after swimming by providing a softer grip to the face.

AVAILABLE IN: KAIMAN EXO, VISTA PRO

AQUA SPHERE LENS TECHNOLOGY

AVAILABLE LENS OPTIONS

Titanium Mirror coating maximizes light perception together with sun light protection.

TITANIUM BLUE

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Enhances warm colors.

TITANIUM RED

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Gives back red colors.

TITANIUM GREEN

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Filters water and green colors.

TITANIUM GOLD

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. For high contrast.

MIRROR

The metalized coating is typically applied on top of a smoke lens, resulting in maximum reduction of light transmission to the eye. This lens provides the highest light filtering dedicated for sunny outdoor conditions. This technology available in Mirror, Titanium Mirror and Titanium Iridescent Mirror.

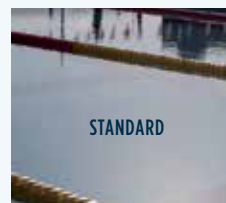

Polarized lenses filter bright reflections to provide anti-glare properties & enhanced contrast.

ORANGE POLARIZED

Polarized lenses offer improved color and depth perception by filtering out the sun's horizontal light rays to eliminate glare reflected off shiny surfaces, such as water, increasing contrast for a sharper and improved vision.

STANDARD

POLARIZED

POLARIZED

GREEN POLARIZED

Now available in green lens polarized "blue cut". Filters blue light while still providing a higher contrast and anti-glare properties.

The most advanced Polarized Plexisol lens technology has specially bonded 4 layers of lamination which offers improved light filtration as well as durability and longevity.

CLEAR

Transmits a natural light, which makes it ideal for low light and overcast conditions where maximum visibility is required. Indoor pools and dark conditions.

BLUE

Blue lenses are perfect for morning or evening swims for moderate glare protection.

SMOKE

Significantly reduces light transmission to the eyes making it ideal for bright light and outdoor daily conditions.

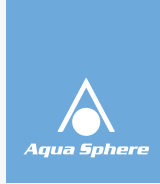

VIOLET

Violet lenses are fashionable and perfect for morning or evening swims for moderate glare protection.

AMBER

Provides excellent vision in both high and low light environments. In low level light amber lenses amplify the light offering clearer vision. In high light levels it reduces glare.

FIT SYSTEM

Aqua Sphere Fit Systems are simple to operate. Micro adjustments allow for the precise tension and most comfortable fit without need for over-tightening. The combination of our facial geometry research, advanced materials and amazingly simple-to-operate buckle systems guarantee you the perfect, leak-free fit every time.

QUICK FIT

An easy to operate, push button buckle adjustment makes tightening and loosening quick and simple, even while wearing. The low profile, micro-metric strap adjustment buckle streamlines the goggle and improves strap adjustment precision and comfort.

AVAILABLE IN:
KAYENNE, VISTA, VISTA JR, VISTA PRO

PIVOTING QUICK FIT BUCKLE SYSTEM

Utilizing the easy to operate, Quick Fit push button buckle system makes tightening and loosening quick and simple. Now paired with a Pivoting Buckle that adjusts and rotates to the shape of the head for comfort and fit.

AVAILABLE IN:
VISTA PRO

E-Z ADJUST

The EZ Adjust buckle is a low profile, micro-metric strap adjustment buckle that streamlines the goggle while allowing for precise strap adjustment. Simply pull the straps back to your desired level of tension for a leak free fit, or lift the buckle tabs and pull the goggle forward to loosen.

AVAILABLE IN:
KAIMAN EXO, KAIMAN, SEAL 2.0, KAYENNE JR, MAKO, EAGLE, MOBY KID, SEAL KID 2

AQUA SPHERE GOGGLE AND MASK TECHNOLOGY

ANTI FOG

Lenses are protected by special anti-fog and anti-scratch treatments.

LATEX FREE

All Aqua Sphere eye protection materials are hypoallergenic and latex free.

UV PROTECTION

UV Protection technology is used to make lenses that cut UV frequencies.

OPTICS READY

Eagle Optics diopter lenses for the Eagle goggle
Available Separately from ranges -1.5 to -6.0.

SILICONE

Surgical grade Silicone provides optimum, long-lasting comfort and product longevity. Available in all straps and some gaskets.

SOFTERIL

A proprietary material substantially softer and gentler to the face versus the traditional TPR (Thermoplastic Rubber) materials used by the competition.

POLYCARBONATE LENS

Six times lighter than glass, ultra durable with superior optic qualities.

PLEXISOL LENS

Sourced in Italy with excellent anti-fog properties. Ten times stronger than glass and 100 times lighter, Plexisol is ultra durable and distortion free.

COMPACT FIT

The width of the nose bridge is smaller than regular adult sizes,
For smaller faces.

FITNESS

SERIES

From the committed fitness individual to the triathlete who enjoys the open water. This series of goggles and masks integrate Aqua Sphere's premium lens technology providing lens options that cut through the water glare offering options for all indoor and outdoor swimming conditions, plus provide wide lens options for open water viewing and comfort. Give yourself the best possible vision while you explore your favorite body of water.

NEW VISTA PRO

VISTA PRO

FIRST SINGLE LENS SWIM MASK

- **Made in Italy**
- **First Single Lens Mask**
- **Curved Lens Technology**
- **Distortion free view**
- **Wraparound, 180-degree visibility**
- **One-touch, Quick-Fit Buckle**
the perfect fit with simple adjustments
- **New Pivoting Buckles System**
for comfort
- **Advanced Fit Technology (AFT)**
increases seal integrity and comfort
- Comfortable, leak-resistant Silicone skirt
- 100% UVA/UVB protection
- Durable Polycarbonate lenses with anti-fog coating (all the lenses) and antiscratch (mirrored lenses only)
- Latex free, hypoallergenic

The Vista Pro is the first Aqua Sphere single lens swim mask. Utilizing the latest technologies, we have developed a new AFT featured silicone skirt, and offer a wide range of different tinted lenses to make the Vista Pro unique in this market segment. Titanium mirrored, tinted and clear lenses coupled with our best selling Curved Lens Technology are available to satisfy any open water swim condition. The new buckle system integrates a new pivoting technology providing two important benefits: structural stability and fit.

KAIMAN

ORIGINAL CURVED LENS GOGGLE - VISION AND COMFORT

- Made in Italy
- Curved Lens Technology
- E-Z Adjust buckle system
- Lightweight Plexisol lenses
- 100% UVA/UVB protection
- 180-degree distortion-free visibility
- Scratch-resistance and anti-fog coating
- Latex free, hypoallergenic

The original curved lens goggle. Following the successful launch of the Seal swim mask, Aqua Sphere applied its curved lens technology to a swim goggle, for the first time bringing 180-degree vision to traditional swim goggles. In addition, the Kaiman changed the definition of comfort for swim goggles by introducing its proprietary Softeril material and easy-adjust side buckles, ensuring a perfect fit.

- **Great for learning to swim**

E-Z ADJUST BUCKLE

PLEXISOL LENS

CURVED LENS TECHNOLOGY

The evolution of the original swim mask for children, the Seal Kid 2 delivers a leak-free fit for children as young as 3 years old. The Seal Kid 2 utilizes Aqua Sphere curved lenses technology for a wide field of vision, making children more confident in the water. The easy-adjust side buckles are simple for kids or parents to adjust even while wearing!
